

International Postdoctoral candidate recruitment

Stanislaw Deja, PhD

Center for Human Nutrition,
UT Southwestern Medical Center

What is UT Southwestern Medical Center?

- A Freestanding Urban Academic Medical Center
 - UT medical centers are situated to provide health care to the Texas population
 - No undergraduates, no NCAA athletics
 - Focus of PhD training on **biomedical research**, with optional teaching opportunities
- Part of the University of Texas System
 - UTSW graduate students have representation to the System
 - UTSW benefits from UT System resources, e.g., funding, software, high performance computing, etc.
- A Biomedical **Research Powerhouse**
 - Very well known among biomedical scientists and academicians
